- English (Professional)

Imran Hossen

Undergraduate ICT Student • Aspiring Software Engineer • Competitive Programmer

PROFILE

I'm an undergraduate ICT student at MBSTU with a genuine interest in competitive programming and software development. I enjoy solving algorithmic problems and steadily sharpening my problem-solving skills through practice and hands-on projects. My focus areas include web development, artificial intelligence, and systems programming, and I'm always exploring new tools and technologies to build practical solutions. I'm looking for an internship or entry-level opportunity where I can apply what I've learned, work on real projects, and grow as a software engineer.

TECHNICAL SKILLS

Programming Languages

C

C++

Java

HTML

CSS

JavaScript (Basic)

Tools & Technologies
